The School Environment

FS 1 FIELD STUDY

ON BECOMING A TEACHER

Episode 1 The School Environment

SPARK Your Interest

This Episode 1 provides an opportunity for students to examine and reflect on a school environment that promotes learning and development.

TARGET Your Intended Learning Outcome

- At the end of this Episode, I must be able to determine the characteristics of a school environment that is safe, secure, and is supportive of learning (PPST 2.1.1).

REVISIT the learning Essentials

1. A physical environment conducive for learning is one that has consistent practices that:
    - keep the school safe, clean, orderly and free from distraction;
    - maintain facilities that provide challenging activities; and
    - address the physical social and psychological needs of the students.
2. Display boards can be powerful in communicating information about the learning environment. They help in building and establishing the school culture. These voids become one way for everyone to learn about the vision-mission, goals, and values that the school upholds.
3. As a basic part of the school's visual environment, display boards have four general purposes:
    - Decorative - They offer visual stimulation and appeal to aesthetics. They set the social and psychological atmosphere of the school.
    - Motivational - They encourage students to perform better and have greater confidence. An example would be the display of students outputs that show that each output is recognized and valued. The bulletin boards help celebrate the learners growth and progress.
    - Informational - They are used as a strategy to readily disseminate information.
    - Instructional - They move students to respond and participate through interactive displays. They get students to think about and communicate their learning.
4. The set of criteria for evaluating bulletin board displays includes effective

communication, attractiveness, balance, unity, interactivity, eligibility, correctness, and durability.

OBSERVE, ANALYZE, REFLECT

Activity 1.1

Exploring the school campus

Name of the FS Student: **JEWEL B. OCTA**

Course: **BACHELOR OF SECONDARY EDUCATION** Year and Section: **BSED 4-SCIENCES**

Resource Teacher 1: **Rommel B. Maninang Jr.** Signature: Date: **08. 20. 26**

Cooperating School: **UNIVERSITY OF CAMARINES NORTE – ABAÑO CAMPUS**

To realize the **Intended Learning Outcome**. Work my way through this steps:

1) Visit the school. Look into facilities and support learning areas in the campus. Then in the classroom.
2) Observe and used to check police as you move around the school premises.
3) Analyze and gather data about the school environment.
4) Reflect on the characteristics of a school environment that promotes learning.
5) Present your idea of a good school environment through any of these:
   a) descriptive paragraph.
   b) Photo essay
   c) Sketch or drawing.
   d) Poem, song or rap

FS 1 FIELD STUDY

ON BECOMING A TEACHER

Episode 1 The School Environment

Facilities	√	Description	Will it contribute to the students' learning and development. Why?
Office of the Principal	/	The office of the principal/Dean's office is conveniently located in the front of the campus which makes it more accessible. It is clean, organized and spacious.	The Office of the Principal or the Dean's office is available and accessible. It is located on the 2nd floor of the newly built admin building. The room was well-ventilated, spacious, has good lighting and accessible.
Library	/	The library is organized, centralized, well-maintained and is a conducive learning environment for the students as well as the teachers. It is well-equipped with resources that are necessary for learning including computers, books, TV and internet connection.	Yes. The school library has major contribution to the students' learning development because it is equipped with learning essentials that makes learning more convenient and accessible for all.
Counselling Room	/	The counselling room is located in GTAO. The counselling room is clean, spacious and most importantly it protects ones' privacy.	Mental health directly impacts learning development by altering cognitive function and focus of the students. Therefore, it is very important for stakeholders to pay attention to the students' mental health in order for them to function and learn efficiently.
Canteen/ Cafeteria	/	The school cafeteria is clean, well-ventilated, organized and most importantly serves nutritional foods that will help the students absorb lesson better.	Good food gives the brain and body fuel to fucos, remember and grow. Nutritious foods supports brain function. Hence, food

			contributes to students' learning development
Medical Clinic	/	The medical clinic is equipped with necessary tools and equipment to ensure that the students' medical needs are met within the school premises.	The medical clinic helps maintain the physical as well as the mental well-bein of the students so that they can focus on their studies.
Audio visual/Learning resource center	X	There is no Audio Visual Center in Abaño Laboratory High School	
Science laboratory	/	The science laboratory is well-eqquiped and can be safely used to conduct science experiments.	Science laboratory is essential for learning development because it supports experiential learning. Scientific concepts are learned best through hands-on experiments and real-life experiences.
Gymnasium	/	The school gymnasium is well-ventilated, can accommodate a good number of students and can be used to conduct school activities inside the school premises.	The students can use the gymnasium for physical activities. It allows the students to play, socialize and enjoy their Physical Education subject.
Auditorium	X	There is no Auditorium in Abaño Laboratory High School	
Outdoor/Garden	X	There is no Outdoor/Garden in Abaño Laboratory High School	
Home Economics Room	/	The HE room is well-eqquiped but still need more equipments. The room is functional and can be used to perform hand-on tasks.	It is a place where various activities takes place. The HE room is well-maintained and is safe to use during hands-on activities which makes it an efffective and efficient room where

			learning takes place and students are able to perform different actual activities and learn.
Industrial workshop area	**X**	The school does not have an Industrial workshop area.	
PTA Office	**X**	The school does not have a PTA office.	
Comfort room for boys	**/**	The comfort is spacious, accessible and clean, but not all toilets are functional	Yes, because it provides a private space for the students to attend to their needs
Comfort room for girls	**/**	The comfort is spacious, accessible and clean, but not all toilets are functional	Yes, because it provides a private space for the students to attend to their needs
Others (Please specify.) Covered Court	**/**	The covered court provides a space for physical and recreational activities of the students	Covered court provides reliable, weatherproof multi-purpose space that accommodates academic and recreational activities.

Episode 1 The School Environment

An Observation Guide for the CLASSROOM VISIT

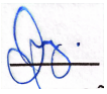

Read the following statements carefully. Then write your observation report on the space provided.

Guide question	Classroom Observation Report
1. Describe the community or neighborhood where the school is found.	The neighborhood where the school is located is peaceful and student-friendly because of the safe environment that allows optimal learning experiences.
2. Describe the school campus. What colours do you see? What is the condition of the buildings?	I would describe the school campus "fierce" because the colour combination gives off a very strong aura. Maroon symbolizes ambition, strength and passion. The four corners of the classroom carries ones' strength and passion for learning. What makes the classrooms' foundation stronger is the passion and liveliness of the students inside. The classrooms may have imperfections but it does not silence the burning passion for learning of the students.
3. Pass by the office is. What impression do you have of these offices?	The office is very accessible because it is located in s very convenient spot—at the heart of the campus. It is a one-stop
4. Walk through the school halls, the library, the cafeteria. Look around and found out the other facilities that the school has.	The school has all the necessary facilities and resources that will help the students learn. The hallways are always clean and spacious. The library is well-equipped with learning resources and lastly, the cafeteria is accessible and has all the necessary food to refuel the brain and body of the students to be able to function in the classroom and learn.

Episode 1 The School Environment

Resource Teacher: **Rommel B. Maninang Jr.** Signature:  Date: **Aug. 20, 2026**

Grade/Year Level: **Grade 9** Subject Area: **Science** Date : **August 12, 2026**

1) Look at the walls of the classroom. What are posted on the walls? What heroes, religious figures, lessons, visual aids announcements do you see posted?

- **Posted in front of the classroom is the school's mission and vision.**

2) Examine how the pieces of furniture are arranged. Where is the teachers table located? How are the tables and chairs desk arrange?

1. **The furniture are arranged according to their uses. The teacher's table is placed in the front of the classroom to maintain the line-of-sight and supervision among the students. The students' chairs are organized and arranged properly.**

3) What learning materials or equipment are present?

- **TV and whiteboard are the main learning material currently available in the classroom. However, at the back of the classroom there are also books available for reference.**

4) Observe the students how many are occupying one room?

- **There are 25 students occupying one room.**

5) Is the room well-lit and well ventilated?

- **The room is well-lit and has natural light seeping in the classroom. However, the classroom is not well-ventilated.**

Episode 1 The School Environment

An Observation Guide for the CLASSROOM VISIT

Be guided by this task as you do your observation. Then accomplish the matrix to record your data.

CLASSROOM FACILITIES MATRIX

Classroom Facilities	Descrition (location, number, arrangement, condition)
1) Wall Displays	In the classroom, no wall display is present. The classroom is plain and simple
2) Teacher's Table	The teacher's table is located in the front of the classroom. There's only one teacher's table in that clasroom and that is where the tv is placed.
3) Learner's Desks	The learner's desk is properly organized and is currently in agood condition. It provides comfort while learning.
4) Blackboard	A whiteboard is available in the classroom and it is still in a good condition—it is functional even though there are few left over tape visible.
5) Learning Materials/Visual Aids	TV is available in the classroom which makes learning more convenient, effective and efficient. There is one TV per classroom and all of the TV's are functional and in good condition.

ON BECOMING A TEACHER

Episode 1 The School Environment

Name of this school observed: **University of Camarines Norte – Abaño Campus**

Location of the school: **J.Lukban Ext., Brgy II, Daet, Camarines Norte**

Date of visit: **August 12, 2026**

MY OBSERVATION

Here are my observations during my class observation in the University of Camarines Norte – Abaño Campus:

- The campus is relatively small but was able to house elementary, high school and college students. The number of rooms are insufficient to accommodate students from elementary, high school and college all at once. But through strategic planning and organized room assignments made it possible.
- The facilities are accessible and well-equipped with necessary resources to accommodate the needs of the students
- The restrooms are spacious and clean but not all toilets are functional and the main problem is the water supply
- The science laboratory is functional but still lacks few scientific tools and equipments necessary for science experiments.
- The cafeteria offers variety of foods. However, the cafeteria is relatively small and is not enough to comfortably accommodate a large population.

FS 1 FIELD STUDY

ON BECOMING A TEACHER

Episode 1 The School Environment

- The library is well-maintained, has good amount of book and equipped with necessary learning materials.
- There are still few rooms that has no TV
- There are old classrooms that needs renovations for the sake of safety and well-being of the students
- The counselling office offers privacy and comfort for students to tend to their mental health needs
- The school clinic is well-equipped, well-ventilated and has all the necessary resources to tend to the students' needs.
- The covered court can accommodate a large number of students during academic and recreational activities.

FS 1 FIELD STUDY

ON BECOMING A TEACHER

Episode 1 The School Environment

ANALYZE

How did the school campus and school in particular impact the learning of these students going to school? What are the conclusions? **The school campus is a place where learning and growth takes place. It directly impacts student learning by shaping their focus, safety, motivation and social behaviour. A clean, safe and well-equipped campus helps students feel secure, and ready to learn.**

How does this relate to your knowledge of child and adolescent development? How does this relate to your knowledge of facilitating learning?

Environment plays a crucial role in a student's learning experience. The learning environment must be conducive in order for learning to take place. If the learning environment is not well-maintained, noisy or messy it creates distractions that hinders the academic growth

FS 1 FIELD STUDY

ON BECOMING A TEACHER

Episode 1 The School Environment

REFLECT

1.) Would you like to teach in the school environment you just observed? Why? Why not?

- **Yes, because the school environment was able to provide a conducive learning environment. The school was safe, well-maintained and equipped with necessary learning materials that is essential for teaching and learning.**

1) What kind of school campus is conducive to learning?

- **A conducive school campus is clean, safe and well-equipped. It encourages focus and motivates learning. A positive space directly boosts student participation and drive to learn. A clean facility, safe ground and organized rooms create a peaceful mind that helps students reach their full academic potential.**

2) What kind of classroom is conducive to learning?

- **A conducive classroom is a combination of comfort, emotional safety and engaging learning instruction. It features good ventilation, bright natural lighting, comfortable seating and a welcoming environment where the students feel safe to participate and cooperate.**

3) In the future, how can you accomplish your answer in number 3?

- **I, as the teacher, will build a classroom that balances comfort, safety and engagement. I will**

4) Write your additional learnings and insights here.

- **I have learned that it is crucial for to make sure that the school campus and classroom is well-equipped and has all the resources they need to have a efficient and effective learning experience.**

FS 1 FIELD STUDY

ON BECOMING A TEACHER

Episode 1 The School Environment

OBSERVE, ANALYZE, REFLECT

Activity 1.2 Observing bulletin board displays

Resource Teacher: **Rommel B. Maninang Jr.** Signature:  Date: **Aug. 20, 2026**

Grade/Year Level: **Grade 9** Subject Area: **Science** Date : **August 12, 2026**

The display board or what we more commonly refer to a bulletin board, is one of the most readily available and versatile learning resources.

To achieve the intended learning outcomes, work your way through these steps:

1) Examine the bulletin board displays include samples of those found at the entrance lobby, hallways, and classrooms.
2) Pick one and evaluate the display.
3) Propose enhancements to make the display more effective.

FS 1 FIELD STUDY

ON BECOMING A TEACHER

Episode 1 The School Environment

OBSERVE

As you look around and examine board displays, use observation guide and forms provided for you to document your observations.

An Observation Guide for BOARD DISPLAYS

Read the following carefully before you observe.

1) Go around the school and examine the board displays. How many board displays do you see?
   - **During my tour around the school, I saw 8 bulletin boards**

2) Where are the display boards found? Are they in places where target viewers can see them?
   - **The bulletin boards are mounted in a high and easily found places such as near the entrance of a classroom or offices.**

3) What are the displays about? What key messages do they convey? What images and colours do you see? How are the pieces of information and images arrange?
   - **The displays on the bulletin board are mostly about announcements, updates and organizational chart. Inside the classroom bulletin boards are about topics in a specific subject for example climate change. The main purpose is to educate. Meanwhile, the bulletin boards displayed outside the offices are mainly about announcements and updates that are directly related to the offices. The information and images are arranged neatly and systematically. Visuals are also placed to attract attention and give appeal to the board.**

4) What materials were used in making the displays or borders used?
   - **The materials used are the following:**

- Colored paper
- Cut-out papers and letters
- Decorative Stickers
- Decorative tapes
- Printed cliparts
- Glitters

5) Do you know this some errors? (misspelled words, grammar, inconsistencies and the like)
   - **There are few errors that are visible. There are missing letter cutouts, the printed materials are starting to fade and the letters are too small to read from a distance.**
6) Are the messages clear and easily understood?
   - **The message is clear and easy to understand.**
7) Think about what you got your attention. Why did it get your attention?
   - **What gets my attention is the design because a good design catches one's eye. I believe that when a bulletin is well-designed and organized, it catches attention and therefore, effective.**
8) Take photos of the display boards (if allowed).

FS 1 FIELD STUDY

ON BECOMING A TEACHER

Episode 1 The School Environment

Based on the questions on the observation guide right or Observation report.

Observation REPORT

- There are lots of board display inside the campus. The display boards are found inside and outside the classrooms. They are located in places where they are easily seen and found. The display varies according to their uses. Display boards in the classroom are educational board poster. Meanwhile, the display boards outside the classroom contains announcements and updates about school.
- What caught my eye the most is the bulletin board inside the admin building on the second floor. The bulletin board contains information about the program chairpersons, and it also contains updates about the organization GAD. Personally, I find the bulletin board educating and also filled with essential information. It is a one-stop board. If I were a first year student I will be very thankful for that bulletin board because through it, I was able to know the program chairperson in that specific bulletin board alone. That is the purpose of a bulletin board; to educate and to spread information so that the the students are informed and keep them aware.

FS 1 FIELD STUDY

ON BECOMING A TEACHER

Episode 1 The School Environment

From among the board displays, that you saw pick the one that you got the most interested in. Evaluate it using the evaluation for below.

BOARD DISPLAYS EVALUATION FORM[1]

Topic of the Board Display: Earth Science (Climate Change)
Location of the Board Display in School: Inside the classroom

Cheque the call that indicates your rating. Write comments to back up your ratings.

4 – Outsanding 3 – Very Satisfactory 2 – Satisfactory 1 – Needs Improvement

Criteria	NI 1	S 2	VS 3	O 4	Comments
Effective Communication It conveys the message quickly and clearly.			/		The message is clear and easy to understand.
Attractiveness Colors and arrangement catch and hold interest.			/		The arrangement is well-oragnized, catches imterests and attention of the students.
Balance Objects are arranged so stability is perceived.				/	The objects are well-organized and has their own spaces.
Unity Repeated shapes or colors or use of off borders hold display together.				/	The bulletin board is designed very well. It has balance even though some colors are contrasting but the design was able to pull it off and was not a sore in the eyes.
Interactivity The style and approach entice learners to be involved in engage.		/			The colors make the bulletin board pop. However, it is not very interactive because there is not much to interact. The students just have to simply read what is posted.
Legibility Letters and illustrations can be seen from a good distance.		/			The letters are hardly seen from a good distance.

Correctness It is free from grammar errors, misspelled words, ambiguity.				/	The material is generally free from grammatical errors and mispelled words enhancing it clarity.
Durability It is well constructed. Items are securely attached.		/			The material appears to be well constructed and securely attached ensuring its longevity.

Episode 1 The School Environment

Bulletin Board Evaluated by: Jewel B. Octa		
Location: Inside the classroom		
Brief Description of the Bulletin Board: Educational Bulletin Board about Earth Science specifically about Climate Change		
EVALUATION		
	STRENGTHS	**WEAKNESSES**
Description of the bulletin board layout.	• The main title at the top is large, bold and instantly eye catching. • It also uses distinct, uniformcard for different sections. • The light-colored information cards pop clearly against the vibrant green background and lastly the graphics and illustrations are distributed throughout to break up heavy text blocks.	• The weakness of the bulletin board is the layout lacks negative space, making the overall presentation feel cramped. • It has no clear reading path, leaving it unclear whether to read horizontally or vertically. • Several cards contain tightly packed, small text that us difficult to read from a distance. • Some decorative cuouts overlap text borders awkwardly, reducing neatness.
Evalution of educational content and other aspects.	• Covers essential pillars including introduction, cause and effect, facts, impacts, actionable steps and conclusions • Features dedicated infographics explaining the mechanisms of “Greenhouse Effect” • Includes a practical section on “Actions We Can Take” to brifge	• The font size inside the information cards is too small. • The main title is blocked. • The board is mounted low to the ground and partially blocked by shoes.

	knowledge with real-world applications.	

Recommendations or suggestions for improvement

- The text should be bigger so that the students will be able to read the text even from a distance. The bulletin board hardly needs improvement because it is well maintained, organized, clean and still up to date.

Episode 1 The School Environment

Based on your suggestions, make your own board display layout. You may present your output through any of these:

- A hand-made drawing or layout.
- An electronic (computer) drawing/illustration or layout.
- A collage.

My Board Display Lay-out

FS 1 FIELD STUDY

ON BECOMING A TEACHER

Episode 1 The School Environment

ANALYZE

What do you think was the purpose of the board display?

- **The board display in a school shares important news, shows student work, and helps students learn. It also turns plain walls into useful tools that guide and inspire everyone in the school.**

Did the board display design reflect the likes/interests of its target audience? Why? Why not?

- **Yes, successfully reflets the interests of its target audience because it is eye catching and it makes a scientific topic into an accessible visual format**

What's the language used? Clear and simple for the target audience to understand. Why? Why not?

- **The language that was used in the display board was because it is the medium of instruction for teaching Science. The explanations were short and simple and easy to understand. They did not use complicated and deep scientific jargons in order for the target audience to easily understand the scientific concept.**

Was the board display effective? Why? why not?

- **It effective because it successfully delivered knowledge to the target audience. The display board is more than just a display and a decoration. The primary purpose of that display board is to educate and deliver knowledge for whoever looks at the board.**

What suggestions can you make?

- **The display board is needs to be repaired because some of the contents were damaged and must be replaced or repaired.**

Based on your suggestions, proposed and enhanced version of the display board. Use the form below.

My Proposed Board Display

Theme: "Bright days, Big Dream ✨"
Board Title: Our Little Corner of Joy
Rationale: **(Purpose)** I want my board display to be a helpful and welcoming part of the classroom. I want my students to easily see important reminders, upcoming activities, classroom rules, and special occasions. I also want it to make the classroom more colorful and encourage students to stay interested and motivated to learn.
Objectives: • To remind students about their assignments, projects, and deadlines. • To keep students updated about upcoming classroom and school activities. • To promote good behavior and responsibility through simple classroom rules. • To make students feel appreciated by recognizing birthdays and achievements.
Best features of my proposed bulletin enhancement: • Daily Reminders – for important assignments, quizzes, and deadlines. • Announcements – for important class information. • Upcoming Activities – for school events, projects, and examinations. • Classroom Rules – simple reminders about respect, cleanliness, and participation. • Birthday Celebrants – to recognize and celebrate students' special days. • "Stay Strong" Corner – a short motivational message to encourage students to keep trying and doing their best.
Content Resources (Name each needed resource and give each a brief description): • Announcements – important reminders about Science projects, quizzes, and other requirements.

FS 1 FIELD STUDY

ON BECOMING A TEACHER

Episode 1 The School Environment

- Upcoming Activities – dates of exams, school programs, contests, and classroom activities.
- Classroom Rules – simple rules that students can easily remember and follow.
- Birthday Celebrants – students' names and pictures for birthday greetings.
- Daily Reminders – current tasks and deadlines that students need to remember.
- Motivational Messages – short and positive messages such as "Stay Strong" to inspire students.

Materials for aesthetic enhancement:

- Green or colorful background paper
- Colored cartolina and construction paper
- Printed letters for the title and headings
- Flowers, stars, and colorful cut-outs
- Markers and colored pens
- Printed student pictures
- Double-sided tape or glue
- Border designs to make each section stand out

FS 1 FIELD STUDY

ON BECOMING A TEACHER

Episode 1 The School Environment

REFLECT

1) Name at least five years that a teacher should have to be able to come up with effective board displays. Elaborate on why each skill is needed.
   - **Teachers should come up with better and more engaging designs.**
   - **Teachers should be able to arrange the information better so that it is clear and easy to understand.**
   - **The teacher should also enhance their technical skills. Maximize Canva, printers and computers to make high quality designs.**
   - **The teacher should also know how to maximize their resources. Utilize materials that are available and use used materials to enhance the board design to minimize the trash.**
   - **Lastly, confidence. The teacher should possess the ability to trust their selves, explore, be creative and not be afraid to layout their ideas.**
2) Which of the skills your name in number one do you already have? Recall your past experiences in making board displays. How do you practice these skills?
   - **As a 21st century teacher, I was trained to maximize technology and use it as a tool to become a better educator. I am digitally literate and that is my strength. I can use my gadgets as tool for my creativity and crafts. Everything I need is accessible and just one tap away.**
3) Which skills do you still need to develop? What concrete steps will you take on how you can improve on or acquire these skills?
   - **The skill that I need to develop is to be creative and learn to use old materials and transform them into beautiful pieces. I do mot have a very creative mind that is why I rely on social media to set up my vision board and start from there. I want to learn how to be more resourceful.**

Portfolio

SHOW Your Learning Artifacts

My Personal Illustration of an Effective School Environment

Let your Creativity Shine!

On the opposite box, present an illustration showing your idea of an effective school environment through any of these:

- A Descriptive Paragraph
- A Photo Essay
- A Sketch or Drawing
- A poem, song or rap

A Classroom That Nurtures

This classroom may look simple, with rows of chairs, old tables, and sunlight coming through the windows, but to me, it represents more than just a place for lessons. It is a space where students can come together, ask questions, share ideas, and slowly discover what they are capable of.

An effective school environment is not defined by how new or beautiful a classroom looks. What matters most is how it makes students feel. A nurturing classroom should make them feel safe enough to make mistakes, supported when learning becomes difficult, and inspired to keep trying. The chairs and tables may be ordinary, but the experiences created within these walls can become meaningful memories.

For me, a good classroom is one where curiosity is welcomed, collaboration is encouraged, and every student is given a chance to grow. It is a place where a quiet student can find their voice, where classmates can learn from one another, and where teachers can guide students toward their potential. Ultimately, a classroom becomes truly effective not because of what it has, but because of the people who fill it with learning, encouragement, and hope.
