Episode 6 Classroom Management and Classroom Routines

SPARK Your Interest

This Episode focuses on the classroom structure and routines performed by teachers in class to provide a safe, friendly non-threatening, and caring environment. Effective classroom routines ensure order and discipline to help the students to stay calm and focused on their daily tasks.

TARGET Your Intended Learning Outcome

At the end of this Episode, I must be able to:

- Identify the classroom routines set by the teacher; and
- Observe how the students execute the various classroom routines

REVISIT the Learning Essentials

Routines are the backbone of daily classroom life. They facilitate teaching and learning routines don't just make the life of the teacher easier. They save valuable classroom time. Efficient routines make it easier for students to learn and achieve more.

Establishing routines early in the school year:

- Enables you to run your daily activities run smoothly;
- Ensure you to manage time effectively;
- Help you maintain order in the classroom;
- Makes you more focused in teaching because you spend less time in giving directions/instructions; and
- Enables you to explain to the learners what are expected to them.

Activity 6.1

Observing Classroom Management and Routines

Name of the FS Student: **JEWEL B. OCTA**

Course:**BSED MAJOR IN SCIENCES** Year and Section: **BSED SCIENCES 4A**

Resource Teacher : **ROMMEL B. MANINANG JR.** Signature: Date: **AUG. 26, 2026**

OBSERVE

Observe the classroom routines of the Resource Teacher by accomplishing the given checklist.

Checklist on Classroom Routines

Check Yes (√) if observe and (x) if not observed.

Classroom Routines	Observed (√)	Not Observed (x)
1. Movement into the classroom.	/	
2. Transition in classroom activities.		X
3. Movement out of the classroom.		X

OBSERVATIONS OF LEARNING-TEACHING IN ACTUAL SCHOOL ENVIRONMENT

Episode 6 Classroom Management and Classroom Routines

ANALYZE

Analyze the routines set by the Resource Teacher.

1. Were the routines effective in ensuring discipline and order in the class? Why? Why not?
   - Yes, the routines were effective in maintaining discipline and order in the classbecause they gave the students a clear understanding of what they were expected to do. Having consistent routines helped students know how when to listen, participate, work with their classmates, and prepare for the next activity. It also reduced unnecessary distractions and helped the class run more smoothly. I believe routines work best when the teacher applies them consistently and positively, while also recognizing students who follow them.
2. Which of those routines were systematic and consistently implemented? Explain your answer.
   - The routines that I observed to be systematic and consistently implemented were passing of papers, submission of materials and projects, asking for assistance, asking questions during the lessons, and movement between activities. These routines were effective because the teacher established clear and familiar procedures that studentscould follow without unnecessary confusion or disruption. For example, papers and other materials were passed and collected in an organized manners, while students knew how and when to submit their projects. The students also seemed comfortable asking questions and seeking assistance whenever they needed clarification, which showed that these routines had become a normal part of learning process. During transition between activities, students were also guided on what to do next, allowing the class to continue smoothly. From my observation, consistent routines helped save time, maintain order, and keep students focused on their tasks. It also made me realize that classroom management is not only about correcting misbehavior but also about establishing routines that students can easily understand and follow. When these routines are practiced consistently, students become more responsible and independent, making the classroom environment more organized and conducive to learning.

Episode 6 Classroom Management and Classroom Routines

REFLECT

Reflect on the various routines observed.

1. Which of the routines will you most likely apply in your class? Why? Why not?
   - The routine I will implement in my class is most likely apply passing of papers, submission of projects, use of classroom supplies, checking of assignments, and movement out of the classroom as part of my classroom routines. I would establish a clear system for passing papers so that materials can be distributed and collected in an organized way without wasting time. I would also have a consistent routine for submitting projects so students know when, where, and how to submit their work, helping them become more responsible.
     I would also include the proper use of classroom supplies because having materials readily available and using them correctly can give students better and more meaningful learning experience. Checking assignments would be another important routine because it allows me to monitor whether students are keeping up with their academic tasks and identify those who may need additional support. Lastly, I would establish an orderly routine for movement out of the classroom, especially during activities that require students to work in another area. Aside from maintaining discipline and safety, I believe appropriate opportunities for students to interact outside the usual classroom setup can help them develop friendships, cooperation, and stronger bonds with their classroom more organized while helping students develop responsibility, independence, and positive relationships.

Episode 6 Classroom Management and Classroom Routines

Activity 6.2

Listing Down Classroom Rules

Resource Teacher : **ROMMEL B. MANINANG JR.** Signature: Date: **AUG. 26, 2026**

Year and Section: **GRADE 9** Subject: **SCIENCE** Date: **AUG. 26, 2026**

OBSERVE

Observe a class and list down the classroom rules formulated by the Resource Teacher. Cite the importance of these rules.

Classroom rules are imperative and must be reinforced for learners' safety and security. Rules also teach discipline and self-control. Rules eliminate stress and will provide a more pleasant, secure, and non-threatening environment. Rules ensure the students' engagement and focus in their classroom activities.

Classroom Rules	Importance
1.E.g. Read directions well.	-Ensures less error in answering the activity.
2.Respect the teachers and classmates	- It creates a safe, peaceful, and supportive classroom where everyone feels valued and can learn better
3.Always be participative	- It helps the students learn better, share ideas, build confidence, and stay engaged
4.Always express themselves	- It helps students share their ideas, build confidence, and communicate with others effectively.

Episode 6 Classroom Management and Classroom Routines

ANALYZE

1. Analyze each given rule. What circumstances led to the formation of the rule?
   - I think Sir Rommel carefully analyzed the needs of the students inside the classroom and made the rules appropriate for the needs and environment of the classroom. I believe that every classroom rule is custom made for every classroom. Hence, those rules are not solely made to be followed but to have a good classroom environment and a classroom that encourages every student to express themselves and treat everyone with respect.

2. Are Classroom rules really important?
   - Classroom rules are important because they give students clear guidance about the behaviors expected from them. Clear and fair rules help maintain an organized, safe, and respectful classroom where students can focus on learning. However, simply having rules is not enough. They need to be properly explained and applied consistently so that students understand their purpose and know how to follow them. More importantly, well-implemented classroom rules do more than manage behavior; they also help students develop responsibility, discipline, and respect, which they can practice both inside and outside the classroom.

OBSERVATIONS OF LEARNING-TEACHING IN ACTUAL SCHOOL ENVIRONMENT

Episode 6 Classroom Management and Classroom Routines

REFLECT

Reflect on the various classroom rules set by the Resource Teacher. Will you have the same rules? If not, what rules are you going to employ? Explain your answer.

- The classroom teacher set a simple and direct rules. Sir Rommel encourages them to always be participative, respect their teachers and classmates and never be afraid to express themselves. I would definitely use the same rules but I will add more according to the needs and the classroom environment. I belive that the situation varies according to the environment because every learner is different. I will always act according to the needs of my students.

SHOW Your Learning Artifacts

Take some snapshots of the classroom routines employed by the Resource Teacher which are worth emulating. Tell something about the pictures.

During my observation, I happened to witness their summative test. I saw how organized they distribute the test papers without making so much noise and mess. Sir Rommel would give the test paper in front and the students will pass it from front to back which makes the whole process easier and more organized. In this way, the save more time and was able to begin their summative exam smoothly with ease.
